EDUCATION

Alma Mater Studiorum - University of Bologna

Sept. 2023 – Present

M.Sc. & B.Sc. in Computer Engineering

Bologna, Italy

- Master's Degree student; Bachelor's Thesis defense expected Dec. 2026.
- **Core Coursework:** Algorithms & Data Structures, Operating Systems (Unix), Computer Architecture, Networks, Software Engineering, Cybersecurity.

EXPERIENCE

Cyberloop

Apr. 2026 – Sept. 2026

Cyber Security & DevOps Intern

Cesena, Italy

- Deployed an automated cyber-response pipeline into production within the Blue Team, accelerating triage and reducing false positive bias.
- Implemented a RAG module using ChromaDB and nomic-embed-text to vectorize summarized alerts and retrieve similar cases via cosine similarity.
- Engineered event-driven workflows with Trigger.dev and custom Wazuh detection rules, enabling host containment on Windows Filtering Platform.

AGESCI Arezzo 2

Sept. 2024 – Present

Scout Leader

Arezzo, Italy

- Leading and organizing scouting activities for youth development.
- Managing logistics, team dynamics, and educational programs.

Circolo Arcobaleno - AIPD Arezzo

Jan. 2023 – May 2023

Volunteer Facilitator (Charity Sector)

Arezzo, Italy

- Organized recreational and educational activities for individuals with Down Syndrome.

PROJECTS

Autonomous Cyber-Response Framework | *Python, TypeScript, Wazuh, ChromaDB, Ollama, Docker*

- Engineered an on-premise security automation pipeline using local LLMs via Ollama, ensuring strict GDPR compliance and zero external telemetry leakage.
- Implemented a RAG module using ChromaDB and nomic-embed-text to vectorize summarized alerts and retrieve top similar historical cases by cosine similarity for dynamic prompt augmentation.
- Automated real-time host containment through Wazuh Active Response on Windows Filtering Platform, validated against 27 enterprise alert benchmarks and live attack simulations.
- Live Demo: <https://federicoporpora.github.io/autonomous-cyber-response>

StudyLink Platform | *React.js, Node.js, SQL, REST APIs*

- Designed and developed a full-stack web application for resource sharing.
- Engineered secure user authentication (JWT), designed RESTful APIs, and optimized relational database schemas (SQL) to ensure robust data integrity.
- Live Demo: <https://federicoporpora.github.io/StudyLink>

intervals-icu-coach | *Python, Intervals.icu API, Agentic Automation*

- Engineered an autonomous, agent-driven endurance coaching engine synchronizing with Intervals.icu via REST API.
- Automated workout planning, physiological wellness tracking, and activity analysis for runners and cyclists.
- Source code: <https://github.com/federicoporpora/intervals-icu-coach>

GPX Data Recalibration Pipeline | *Python, TCX, Telegram Bot API*

- Built a data synchronization tool to merge external heart rate data into GPS tracks for corrupted workouts and treadmill runs.
- Automated the entire processing pipeline via a custom Telegram Bot, streamlining exports into Strava-ready formats.
- Source code: <https://github.com/federicoporpora/gpx-telegram-bot> | Demo: [@gpx_hr_merger_bot](https://twitter.com/gpx_hr_merger_bot)

CERTIFICATIONS

C1 Advanced (CAE) – Cambridge Assessment English

- Credential ID: B8134268.

SKILLS

Technical Skills : C, Java, Python, JavaScript, TypeScript, SQL, Git, React.js, Node.js, Docker, Ansible, Wazuh, SIEM, OpenSearch, Trigger.dev, Cybersecurity, Unix

Languages : Italian (Native), English (C1 Advanced), Spanish (A2)

Soft Skills : Time Management, Organisation, Problem Solving, Communication, Teamwork
