EDUCATION

Alma Mater Studiorum - University of Bologna

Sept. 2023 – Dec. 2026 (Expected)

Bachelor's Degree in Computer Engineering

Bologna, Italy

- **Core Coursework:** Algorithms & Data Structures, Operating Systems (Unix), Computer Architecture, Networks (Sockets), Web Architectures, Software Engineering, Cybersecurity.
- Currently in final semester; Thesis defense expected Dec. 2026.

EXPERIENCE

Cyberloop

Apr. 2026 – July 2026

Cyber Security & DevOps Intern

Remote / Italy

- Engineered and deployed a comprehensive SIEM and Incident Management stack using **Docker Compose**, integrating **Wazuh XDR**, **DFIR Iris**, and **OpenSearch**.
- Developed an automated, AI-driven incident response pipeline using **Kestra** and local LLMs (**Ollama** with **qwen2.5**) to analyze alerts and trigger network isolation via Wazuh Active Response.
- Created Python scripts to auto-generate custom **ElastAlert2** rules for threshold-based anomaly detection, monitoring suspicious API and endpoint activity.
- Configured Windows/Linux VMs with Sysmon and Wazuh agents for File Integrity Monitoring (FIM) and real-time ransomware threat detection.

AGESCI Arezzo 2

Sept. 2024 – Present

Scout Leader

Arezzo, Italy

- Leading and organizing scouting activities for youth development.
- Managing logistics, team dynamics, and educational programs.

Circolo Arcobaleno - AIPD Arezzo

Jan. 2023 – May 2023

Volunteer Facilitator (Charity Sector)

Arezzo, Italy

- Organized recreational and educational activities for individuals with Down Syndrome.

PROJECTS

StudyLink Platform | *React.js, Node.js, SQL, REST APIs*

- Designed and developed a full-stack web application for resource sharing.
- Engineered secure user authentication (JWT), designed RESTful APIs, and optimized relational database schemas (SQL) to ensure robust data integrity.
- Live Demo: <https://federicoporpora.github.io/studyLink-live>

intervals-icu-coach | *Python, Intervals.icu API, Agentic Automation*

- Engineered an autonomous, agent-driven endurance coaching engine synchronizing with Intervals.icu via REST API.
- Automated workout planning, physiological wellness tracking, and activity analysis for runners and cyclists.
- Source code: <https://github.com/federicoporpora/intervals-icu-coach>

Autonomous Cyber-Response Framework | *Python, ChromaDB, Ollama, Wazuh, Docker*

- Engineered an automated SOC defense pipeline with Wazuh XDR, OpenSearch, DFIR IRIS, and local LLMs (Ollama) to triage security alerts and mitigate alert fatigue.
- Implemented a RAG module using ChromaDB and nomic-embed-text: compressed and vectorized alerts, retrieved top-N cosine-similar cases, and enriched prompts with production responses, IoCs, and MITRE D3FEND tactics.
- Automated real-time endpoint isolation via Windows Filtering Platform (WFP) with an average response time of approx. 60s.

GPX Data Recalibration Pipeline | *Python, TCX, Telegram Bot API*

- Built a data synchronization tool to merge external heart rate data into GPS tracks for corrupted workouts and treadmill runs.
- Automated the entire processing pipeline via a custom Telegram Bot, streamlining exports into Strava-ready formats.
- Source code: <https://github.com/federicoporpora/gpx-telegram-bot> | Demo: [@gpx_hr_merger_bot](https://t.me/gpx_hr_merger_bot)

CERTIFICATIONS

C1 Advanced (CAE) – Cambridge Assessment English

- Credential ID: B8134268.

SKILLS

Technical Skills : C, Java, Python, JavaScript, SQL, Git, React.js, Node.js, Spring, Docker, DevOps, Wazuh, SIEM, OpenSearch, Kestra, Cybersecurity, Unix

Languages : Italian (Native), English (C1 Advanced), Spanish (A2)

Soft Skills : Time Management, Organisation, Problem Solving, Communication, Teamwork
